CPU Performance is based on Geekbench v6.2 Single Core on ChromeOS R133. MediaTek Kompanio Ultra (910) was tested using a MediaTek - Google development board on ChromeOS 133. MediaTek NPU890 supports INT8/dense. Intel Core Ultra 5 125U CPU was tested using an ASUS Zenbook S13 (UX5304) on Windows. Intel Core Ultra 5 115U was tested using an ASUS Expert Book CX54 (CX5403CMA) on ChromeOS R133. Battery life estimated based on Google PLT (Power Load Test) with a 60Whr battery. Power and performance comparison reflects results based on measurements and hardware instrumentation of given devices. Battery varies significantly with setting usage and other factors. Agentic AI, Bluetooth 6.0, and Raytracing are not supported on ChromeOS.
